Examiner's Amendment and Reasons for Allowance

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Kevin Russell on 6/27/06.

3. The application has been further amended as follows:

Claims 1-12, 24-46 and 51 have been cancelled.

4. Claims 13-23 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements:

the method of identifying a plurality of segments of a baseball video to create a summarization of the video wherein the start of said plurality of segments is identified based upon detecting at least three spatial regions of horizontally oriented regions of generally homogeneous color including at least one of generally homogeneous brown and generally homogeneous green, where each of said segments includes a plurality of frames of said video as recited in claims 13 and 19.

Although Kawashima et al., Wang et al. and Lin et al. teach a substantial amount of the claimed matters, Kawashima et al., Wang et al. and Lin et al. fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
